THE CHARLEROI MAIL

VOL. XVIII. NO. 272. CHARLEROI, WASHINGTON CO., WEDNESDAY, MAY 3, 1918. ONE CENT

Will You Match the President?

President Wilson says he has been informed that 10,000,000 Americans have bought Bonds of the Third Liberty Loan. He wants to know if there are one million of this number who will match him in buying another $50 bond on the installment plan. He has already bought to his limit, but he will buy ONE MORE ON THE INSTALLMENT PLAN. Will you match him?

An Urgent Appeal to Business Men, Stores. Firms, Clerks, Bookkeepers and Others

Our Third Liberty Loan quota has not been met. The District Chairman has asked us to do more. Even he President of the United States has requested that you buy yet ANOTHER BOND. Will you do it? Is there a store-keeper, a firm, a clerk, a driver, who will buy another bond? Your last chance—act at once. Do your utmost. Many have bought but one bond, when they could buy many. Now is the time to show by real actions how loyal you are. Even up the score. It is the last canvass---the last appeal. Let us never fail our country.

COMMUNITY OBSERVANCE OF MEMORIAL DAY IS SUGGESTED

Civil War Veterans Ask That All Citizens Join In Celebration

FOR SOLDIERS OF ALL WARS

Memorial Day is coming along with rapid strides ,and before we realize it this day of sacred memories will be here. Owing to our participation in the great world war it will be celebrated with greater solemnity than ever before. The men for whom it was established , the men who served in the civil war of the 60's are rapidly passing by, and in a few years there will be but few if any of them to take part in the exercises incidental to this solemn occasion. However, during all the fifty years which this day has been set apart for the remembrance of the heroic dead the veterans of the great civil strife have never failed in their duty of paying tribute to those of their number who have answered the final roll call ,and who now sleep in "fame's eternal camping ground, the bivouac of the dead."

While Charleroi has no plot of ground set aside in the local cemetery like many of the older towns of the country dedicated to the soldier dead, it has a number of residents who served through the civil war, and who have suggested that arrangements for the observance of this day should four weeks until Memorial Day is here and there ismuch to do provided we expect to remember it as a day sacred to the heroic dead. For in the years to come Memorial Day is going to mean a whole lot more than ever before to Charleroi. We have hundreds of young men in the military service of the United States, and it would be expecting a great deal to believe that all of them will return home. Like every other community we will have to pay our share of the great debt. and some of this debt will be paid in human lives. "Our soldier dead" will not be a meaningless expression to our people after this war. It will have a meaning which will impress it upon our hearts and minds just the same as it has been seared into the memory of the civil war veterans who are now answering the final roll call. Arrangements therefore to honor this day should be placed under way at once, that proper honor and respect may be shown not only to the men of the past, but to the boys of today who are fighting for the liberties of the people.

SOLDIERS APPROVE HOME TREATMENT

William Davis who lives on McKean avenue. has a son in training at Camp Sherman. He received a letter a few days ago from the boy, in which the soldier told of receiving a copy of the Charleroi Mail. carrying an account of the "persuasion party" which called upon J G. Lee, the barber and compelled him to renounce the detrimental things he had said with reference to the government and its place in the present war.

In the letter the young man told of how. after reading the account and informing all of the Charleroi boys in barracks, the men were organized into a ratification meeting and three rousing cheers were given for Charleroi. The incident, and the manner in which it was carried out. met with the unanimous approval of the boys who are in training for they realized that the folks back home were "keeping the home fires burning," even if it did take the form of a party in which the offending party was somewhat forcibly shown the error of his ways

WHITE FLOUR DELIVERIES AT LOCK FOUR BEING INVESTIGATED

Say Flour Is Being Delivered Without Being Required to Take Substitutes

MERCHANTS MAKE COMPLAINTS

Local food administrator W. M. Darby has again had his attention called to conditions with reference to flour delivery by the supply company composed of employes of the Pittsburg Steel products company. In company with a competent witness he made a visit to Lock Hill Thursday forenoon and interviewed a number of employes of the tube mill, all of whom were foreigners. with reference to flour deliveries. All of them appeared to be anxious to give information or a least they were not averse to answering such questions as they were asked on supply of flour which they have been receiving apparently with great regularity.

According to the statements made by these people a memoranda of which is in the possession of the local food administrator, deliveries of flour. have been made regularly every two weeks, in quantities of 50 and 100 pounds. With these deliveries however they were required to take no substitutes, as provided in the national regulations promulgated by Mr. Hoover. This condition of affairs, which it is alleged allow those connected with this supply company to secure all the wheat flour they needed without being compelled to take any of the substitutes listed by the government, has been common knowledge among local merchants, who called the attention of Mr. Darby to the situation. They contended that as they had to obey the regulations set forth by the government or lose their license to trade it was only fair that this supply company be compelled to live up to the requirements as set forth by the federal administrators.

Some time ago Mr. Darby had this same question up with the supply company and their appeared to be a general understanding that in the future the management would live up to all requirements of the government. If what evidence Mr. Darby has secured is reliable, the promises made in the past have not been very faithfully kept.

One reason given for the sale of this flour, it is said, is, that it was purchased last fall and was only recently delivered. However, Mr. Darby calls attention to the fact that Charleroi dealers caught in the same manner by delayed shipments of flour, could make no sales until they had provided the required substitutes. As a consequence local wholesale dealers were tied up for several days with large stocks of flour which they were not permitted to dispose of until such time as they could provide the substitutes along with the flour.

Mr. Darby says he will submit all

INVEST SURPLUS IN W. S. STAMPS

At a meeting of the Monongahela Valley Trades Council held in Charleroi Thursday evening the Liberty Loan bonds were discussed but it was finally decided to invest $200 in the treasury of the council, and which was left over from the April first celebration in War Savings Stamps. 100 P. C. RECORD FOR HOTEL ROSCOE

A record of one hundred per cent has been set by the proprietor and guests of the Hotel Roscoe, at Roscoe in the way of subscribing for Third Liberty Loan bonds. In accordance with the wishes of the President many of the guests duplicated their subscriptions. bringing the total amount up to $4,150. A H. Furlong. proprietor of the hotel. is justly proud of therecord that his house has made and which helped materially in putting Roscoe "over the top."

MILL WORKMEN BUY LIBERTY LOAN BONDS

The workmen employed on the new tube mill at Allenport have so far subscribed to $38,500 worth of Third Liberty Loan bonds. On Thursday Rolla Hormell and J. B. Tussing, local Four Minute Men, went to the plant and help boost the sales over $13,000 of the above amount being taken after they had addressed the men.

MONONGAHELA HAS REACHED ITS QUOTA

Our neighboring town of Monongahela has reached its quota for Third Liberty Bond sales. whereat the citizens are quite jubilant. And they have reason to be for Monongahela has nobig mills upon which to depend for heavy bond sales, all of theindustries contributary to it being located atpoints outside the city limits.

REACHING THE GOAL.

Tomorrow evening the Third Liberty Loan campaign will become a matter of history. At that time all of the subscriptions will have been made, and those who promised to subscribe to bonds will have either paid their first installment or have paid for them in full.

After the close of business Saturday night we cannot add to nor subtract from the sum total of the subscriptions, and the record as made must stand. The sum totals of all the sales will show the extent of our patriotism as expressed in dollars and cents, and the extent to which we are willing to back our government in this stupendous conflict.

We hope to exceed the expectations of the government officials. We anticipate that the subscriptions for these bonds will be participated in by millions more people than bought of the first and second issue. We believe our hope and anticipations will be realized, for the people have shown an enthusiasm in subscribing for the securities that is most gratifying True some of the subscriptions are small, in fact many of them are, the investment in the smaller denomination being exceptionally heavy, but the act is what counts as well as the amount. We may believe we have subscribed to our limit but a more careful inspection of our resources may lead us to change our opinion We may be ableto subscribe for "another bond." It may mean just a little more saving, but when we begin to consider bond buying, we should likewise take into consideration the fact that the boys "over there," of whom there are almost a million now, are not only taking Liberty Bonds, but are likewise taking a chance with their lives. Never forget the fact that we are risking absolutely nothing—the government is selling us a splendid investment on liberal terms, while the boys in khaki are ready to give their lives for the principles we are contending for.

OUR GROWING COMMERCE

While the monthly report of Lock No. 4 for the month of April showed shipments somewhat less than in March, yet one feature stands out boldly and which is going to be a big factor in the commerce of this valley. This is the shipment of coke by water, which the Carnegie Steel company has entered into on a large scale.

During the month of April over 2,000,000 bushels of coke were shipped from the sixth pool to the various furnaces in and about Pittsburg, big steel barges being used for the purpose and delivered to plants which have modern means and equipment for rapid unloading. While this is a large amount of coke to be shipped by water, yet it is far from the total tonnage the Carnegie Steel evidently hopes to reach in the near future, when its great fleet of towing steamers will be placed in commission on this natural highway of commerce. Big industrial plants have been a long time in coming to a proper appreciation of the advantages of river transportation in the Monongahela valley, but they seem to place the proper value on it in these days of strenuous industrial activity and the prospects are that it will be greatly developed within the next few years.

Prior to the formation of the River Coal combine in 1899 the local trade, as it was termed, was served by about five steamboats, towing coal from the fourth pool to Pittsburg but this number has been largely increased during the recent years and will be further augmented before the summer is over. Steamboats of the most modern design and build and steel barges serve to place the coal and coke transportation business, on a higher plane on the river than ever before, and the fact that big steel companies are willing to make such large investments show they have determined to transport the greater tonnage of their fuel for local needs by the river route.

STIRRING TIMES.

The American people are no sooner [illegible] than another is on hand to engage their immediate attention.

The Liberty Bond campaign ends Saturday night, and Monday morning will usher in the "Clean-up" week, which the health department of Pennsylvania hopes to make statewide In this campaign the people of Charleroi are urged to take a prominent part The local health department, the boro officials and the Home Defense Police are all expected to take an active part in promoting the campaign, while every householder is urged to lend his or her assistance in making the movement a success.

The plan of campaign of the local officials will soon be made known and every citizen is expected to give assent and help put it over with, the same enthusiasm as characterized the Liberty Loan. We should have a clean town as well as patriotic one, and the way to accomplish this is for each one to take care of their own premises. The officials will do the balance.

THOU ART THE MAN!

Responsibility for winning this war rests just as heavily upon you as upon any man in America or any man in the Allied armies in France.

Don't forget this fact. Don't try to put it aside.

You have just as much at stake as any one of them.

Your country is just as much menaced as theirs. Your property, your family, your life and your liberty is in just as much danger.

But possibly your conscience isn't as alert.

Possibly your loyalty is asleep.

Possibly your self respect has gone stale.

Possibly you are just an ordinary slacker.

Then again, possibly the matter hasn't been brought straight home to you before. And that's what we are trying to do now.

For "Thou art the Man"

Search out your duty and do it.

It means buying a Liberty Bond.

PECULIAR CASE.

An unusual claim for damages for the loss of sheep, to the amount of about $139, is with the county commissioners for payment, but has not yet been passed upon. It is a question as to whether the county is able to pay the damages or not. One sheep, for the loss of which a claim is made, were killed by the claimant's own dog. No affidavit accompanies the claim as to whether the dog was killed or not. This is required. The law does not make, it appears, any exception, where a dog kills the sheep of his master. It is a rare case, and the commissioners have not yet come to a decision.

GOOD MEETING.

A Liberty Loan meeting was held at the Long Branch school house on Tuesday evening, under direction of the Roscoe and Charleroi committees, which proved to be quite a success. The room was crowded with interested residents and a very nice literary and musical program was given, a feature of which was a recitation and song by little Miss Crew. Rev. Ward, from California, was the principal speaker of the evening, with Mr. Tussing and Mr. Brown of Charleroi, also on the program. After the meeting about one thousand dollars' worth of bonds were sold.

Genial old Chauncey M. Depew admits that he is 84 in three years, but in characteristic fashion repudiates the suggestion that he is that old in spirit, declaring that he never "felt younger" than on his recent birthday. That he is paying some of the tribute which great age exacts, however, appears from his remark that he has smoked his last cigar When the physicians of King Edward VII told him that he could live 2 or 3 years longer by giving up smoking he is said to have replied: "It isn't worth it." Mr Depew, less tired of life even at 84 is willing to pay this price.

Unfortunately there were none of the Hohenzollerns among the casualties on the western front.

Remarkable Signed Statement Recently Made By Mrs. S. F. Parker

This striking endorsement given to the Nerv-Worth druggist at Washington, Pa., carries almost valuable message to ailing folks.

The E. C. Myers Drug Store—For at least eight years I have suffered with nervousness to such an extent that I could not digest my food. Terrible trouble with my stomach. Gas would form and I would bloat badly. The gas pressure interfered with heart action and caused it to flutter and produced a smothering sensation. I was very weak and could hardly do my housework. I saw Nerv-Worth advertised in the paper and heard others saying how greatly they had been benefited by its use and I procured a bottle from you and after using it I commenced to improve and am now a WELL WOMAN AGAIN All the troubles mentioned are gone. I surely recommend Nerv-Worth as I believed I would not be alive today had I not used it.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For three months she was under the doctor's care and got no better, always complaining about her back and side aching so I didn't know what to do. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more with her back and side aching. She has gained in weight and feels much better. I recommend Lydia E. AMERICANS HAVE STRONG NERVES

Nervousness and Nerve Troubles on the Decline

"Nothing wrong but your nerves" is a saying thatisfast lying out in this country. While nerve trouble is nc organic disease one of our leading nerve specialists remarked: "A man or woman might better break a leg t han have ashattered nervous system."

Overwork and worry drains the nerve cells of their reserve strength and food and then follows the sleepless night, indigestion, poor appetite, impure blood and general nervous breakdown.

The thing to do in such cases no longer troubles doctors and their patients who know from their own sxperience t he value of Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system because Phosphated Iron gives the tired, hungry, wornout nerve cells phosphates and iron in a form easily and quickly absorbed; as one happy user said: "You can almost feel it taking hold of the nerves and blood, after a short time you feel like a new person; life seems a pleasure and worth living once again.

In every section where Phosphated Iron has been used there h as been a big decrease of nerve troubles and it will prove a welcome relief to any sufferer. You can bank on it for results—it's pure.

To insure physicians and their patients g etting the genuine Phosphated Iron we have put up in capsules only, do not take pills or tablets. Insist on capsules. W. F. Hennings and leading druggists everywhere.

Facing The Facts

The great battle raging in France, on the Plains of Picardy, brings home to America the extent to which our help is needed by our Allies, if we are to win the war. Up to the present we have been told many times that the war could not be won without American help. Sometimes we have been told this so forcibly that some among our Allies, with, perhaps, too tender a pride in the great achievements of their own countries, have been moved to say that these statements were somewhat overdrawn.

This is the emergency and these are the facts that confront the whole American people. The demand for our help is immediate, urgent and must be met. It must be met in a way that will be conclusive as to American determination and American ability to win the war. And it must be met in a way to show that the whole American people is concerned every man, woman and child living under the shelter of the Stars and Stripes.

Fortunately for the American people, at the very moment this great need arises on the battlefields of France the government at Washington is campaigning for the success of the THIRD LIBERTY LOAN. The opportunity is given them to show both their determination and ability to carry this great war to victory. There could be no more definite and conclusive answer as to the feeling of the American people in regard to this war than the overwhelming success of the THIRD LIBERTY LOAN.

No war can be won without money, and this war, more than any other ever fought, requires money in an immense volume. By lending money to the government for war purposes without stint, freely and gladly, in this THIRD LIBERTY LOAN the American people will show beyond the shadow of a doubt that they are in this war to win, and to stick until they do win.

Now, let us give the demonstration. Let us carry the THIRD LIBERTY LOAN to an unprecedented success.
